Dear **Mr. Balderas**,

Greetings!

The Department of Environment and Natural Resources (DENR)-Environmental Management Bureau (EMB) relaunched the **NATIONAL SEARCH FOR SUSTAINABLE AND ECO-FRIENDLY SCHOOLS (NSSEFS)** in November 2023 as part of its commitment to promoting sustainability and environmental stewardship. This initiative aims to recognize and celebrate schools that demonstrate outstanding efforts in sustainability and eco-friendliness.

To continue this initiative, we will be hosting a series of orientation and training sessions, including a **webinar via MS Teams on April 30, 2024** that will provide valuable insights on the NSSEFS program criteria, application process, and best practices in promoting sustainability within school communities.

We believe that the Department of Education plays a crucial role in shaping the environmental consciousness of our youth, and we would like to invite schools under your jurisdiction to participate in this meaningful endeavor.

In this regard, we respectfully request your assistance in disseminating this invitation to schools within your district and in encouraging their participation in the NSSEFS program.

Attached to this email are the QR Code and the link for the registration, promotional materials, and further information about the NSSEFS program that you can share with schools in your district.

Thank you for your support in advancing environmental education and sustainability initiatives within the CALABARZON Region. Together, we can make a significant impact on our environment and inspire future generations to become stewards of the environment.
