Mock Examination

The participants will take mock exams in subject areas that are commonly tested in college admission. This activity is done to simulate real exam conditions which have time limits and questions that mirror the format and difficulty of the actual exams.

Our guest lecturers will cover key topics that usually come up in college entrance exams and review the questions from the mock exam. They will break down complex concepts, share problem-solving techniques, and give advice on managing one's time during the tests.

Participants will be given the chance to ask questions and clarify concepts they are unsure about. This helps them to feel more confident and better prepared to take the CETs.
