**MEMORANDUM**

07 January 2022

For: **Regional Directors  
Schools Division Superintendents  
Regional and Division Information Technology Officers  
School Heads/Principals  
School ICT Coordinators  
Teachers Concerned**

Subject: **THE USE OF ANDROID-BASED ELECTRONIC  
SELF-LEARNING MODULES AND DIGITIZATION OF  
GAMIFIED RESOURCES (WEBINAR SESSION #1)**

The Office of the Undersecretary for Administration (OUA), through the Information and Communications Technology Service-Educational Technology Unit (ICTS-EdTech), continuously innovates and defines learning by developing solutions that will maximize the use of ICT in instruction. A print-based module is constructive to guide learners in understanding concepts with the different needed competencies for a particular quarter or period. However, this will require human resources and numerous paper materials, which is not Earth-friendly. Using emerging technology and software solutions, the ICTS-EdTech converted the ready-to-print quality assured Self-Learning Modules (SLMs) into an Android-based format that is cost-efficient and easy to deploy.

The ICTS-EdTech will be conducting a webinar session on 15 January 2022, from 9:00 am to 12:00 noon (see Annex A for detailed program guide), regarding the maximum use of the Android-based electronic self-learning module, which is downloadable at the DepEd Commons. In addition, the training will provide how to gamify existing resources using application-based resources that are engaging and compelling that learners and teachers will benefit from in any learning environment.

This activity offers an open registration. The sessions will be aired on the following social media accounts:
