Social Media Campaign for the National No Smoking Month

The webinar serves as a “take-off” for a month-long social media campaign that will encourage learners to make their voices heard about tobacco and vape control in the country.

For the entire month of June, learners—with the permission and guidance of their parents or guardians—are invited to post on Facebook a video of themselves asking their questions or sharing their ideas related to tobacco and vape use. They shall use the hashtags #NNSM2022, #NoTobacco, #TobaccoExposed, and #SmokeFreePhilippines and mention/tag in their post the Facebook pages of the PPS (<https://web.facebook.com/PhilPediaSocInc>) and OK sa DepEd (<https://web.facebook.com/OplanKalusuganSaDepEd>).

Following are examples of questions they can ask in their videos:

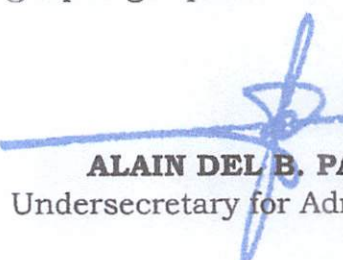

1. How can cigarette butts be an environmental hazard when there is no combustion anymore?
2. Our apartment neighbors smoke and we can still smell the smoke even if they are not there. How can we keep ourselves safe from second hand and third hand smoke?
3. They say it is the tar that causes cancer and not nicotine. Vapes do not have tar. Does this mean the cancer potential is less or none at all in vapes?
4. How do smoking and vaping contribute to air pollution and climate change?
5. Some vapes claim they have no nicotine and have lesser chemicals; can vaping still affect my immune system and brain development?
6. We are still in the pandemic times, do people who smoke and vape have higher risk of having COVID-19 infection even if vaccinated?
7. Are there laws in place to protect us children, teens, and young adults from smoking and vaping?

Heath professionals from PPS and DepEd will respond to the selected videos throughout the month, while some videos will be featured on the Facebook pages of PPS and OK sa DepEd. Selected learners will receive tokens from PPS and DepEd.

Tobacco Control Coordinators, Brief Tobacco Intervention Providers, NDEP/BKD Coordinators, Youth Formation Coordinators, DRRM Coordinators, classroom advisers, and other school personnel are requested to disseminate information/promote awareness about the campaign and to provide necessary support or guidance to learners who wish to participate. For reference, a video from PPS providing context to these concerns may be accessed at <https://bit.ly/depedpps2022wntdnnsn> after the webinar.

For questions and concerns, please contact **Gian Erik M. Adao**, Education Program Specialist II, through email at blss.shd@deped.gov.ph.

For wide dissemination.
