1. The Department of Education in collaboration with the Department of Health (DOH) and spearheaded by the Philippine Research Institute (PERI) as the implementer on the National Vision Screening Program, aims to screen all Kindergarten learners entering the Filipino school system at age 5 or 6 to detect errors of refraction and amblyopia. The National Vision Screening Program is an essential component of the Oplan Kalusugan sa DepEd (OKD) under the Medical, Nursing, Dental and Nutrition.
2. The overall goal of this plan is to ensure that all Filipinos enjoy the right to sight by reducing the burden of avoidable blindness and visual impairment and ensuring equitable access to a comprehensive package of quality eye care services.
3. The School Health and Nutrition Unit will conduct a school-to-school Vision Screening among Kindergarten Learners in SDO Tayabas from **September 2, 2024 - December 10, 2024**.
4. Attached is Enclosure 1: Schedules of Schools for Vision Screening.
