SUBJECT : **GUIDELINES ON THE ADMINISTRATION OF MULTI-FACTORED ASSESSMENT TOOL (MFAT) AND SUBMISSION OF RESULT**

DATE : **JUNE 25, 2019**

1. Pursuant to DepEd Order No. 29, s. 2018 entitled Policy on the Implementation of Multi-Factored Assessment Tool, the following schools shall administer MFAT to assess Grade 1 learners enrolled in regular schools, who may exhibit developmental advancement or delays or have manifestations of learning disability based on the result of the ECD Checklist.

- East Palale Elementary School
- Froilan E. Lopez Elementary School
- Katigan Elementary School
- Lakawan Elementary School
- Lalo Elementary School
- Lawigue Elementary School
- Masin Elementary School
- Potol Elementary School
- South Palale Elementary School
- Tayabas East Central School Bldg. I
- Tayabas West Central School II
- Tayabas West Central School III
- Tayabas West Central School IV
- Wakas Elementary

2. Concern kindergarten teachers shall provide list of learners with developmental advancement or delays or have manifestation of learning disability based on the result of the ECD Checklist to Grade 1 teachers as their basis for the conduct of MFAT. Concern school heads shall supervise the conduct of the MFAT and submit narrative report to mildred.galleno@deped.gov.ph 1 week after the administration of the test.

3. Attached are the following:

- * Enclosure 1 – MFAT materials
- * Enclosure 2 - MFAT Administration Handbook
- * Enclosure 3 – List of schools based on the Summary Result of the ECD Checklist
- * Enclosure 4 – Schedule of administration and submission of narrative report
- * Enclosure 5 – Monitoring Tool for the conduct of the MFAT

4. Immediate dissemination of this memorandum is desired.

MONITORING TOOL FOR THE CONDUCT OF MFAT

Indicators	Observed	Not Observed	Remarks
Preparation Stage:			
1. The school head checked if the Post test result of ECD Checklist considered in identifying learners to take the test.			
2. The school head informed the teacher about the schedule/conduct of MFAT ahead of time			
3. The school head provides budget allocation for MFAT administration and other intervention and enhancement activities needed			
4. The MFAT materials per activity are complete. Properly labelled and arranged			
5. Parents were informed in the schedule of MFAT			
Test Proper			
1. The place is quiet, well lighted and ventilated			
2. The testing room have a table and chairs to provide comfortable conditions for the respondents and examiner			
3. The materials can be easily accessed by the assessor but will not distract the learner			

4. Record time started and ended per activity			
5. Record learner's response			
6. The test finished not more than 120 minutes			
7. 100% of learners identified took the test			
Post Examination Stage			
1. Summarize the result for intervention or recommendation			
2. Teachers submitted the summary result of the MFAT to school head a day before the due date in the division			
3. The school head submitted narrative report to division office			
4. Teachers pack properly the materials used and keep in the designated place.

MULTI-FACTORED ASSESSMENT TOOL (MFAT) ADMINISTRATION HANDBOOK

I. Introduction

The Multi-Factored Assessment Tool (MFAT) is a screening tool intended to gather information on learner's strengths, needs, learning styles, and other educational concerns. It shall be conducted in all schools a month after the beginning of each school year. This is a one-time assessment administered to Grade I learners enrolled in the regular schools who may exhibit developmental advancement or delays or with manifestations of learning disability. It is an activity-based assessment covering the five domains of learning namely:

- (1) **COGNITIVE DOMAIN** – refers to the learner's ability to remember, see or hear likenesses and differences and determine its relationship between ideas and things;
- (2) **COMMUNICATION DOMAIN** - signifies the learner's ability to learn a systematic pattern of language developed through listening and speaking and to clearly send and receive a message;
- (3) **SOCIO-EMOTIONAL DOMAIN** – refers to the learner's ability to deal with oneself, express and understand feelings and how the child relates to other people;
- (4) **MOTOR DOMAIN**- pertains to the coordinated movements of large muscles (gross motor movements) and small muscles (fine motor movements) of the body through various degrees of eye-hand coordination; and
- (5) **DAILY LIVING SKILLS DOMAIN** – shows the learner's ability to take care of oneself in day-to-day needs such as feeding, hygiene and good grooming.

Each domain is a strong gauge to measure the child's capabilities and/or needs. The data gathered from MFAT result provides immediate and appropriate intervention programs or referral for further assessment to identified learners in the schools.

MULTI-FACTORED ASSESSMENT TOOL (MFAT) ADMINISTRATION HANDBOOK

II. Goals and Objectives

The MFAT aims to identify the strengths and weaknesses of learners in Grade 1 which would require appropriate intervention/s and proper placement. It will also assist teachers for instructional planning and educational placement of learners. The result of the MFAT does not in any way, affect the performance of the learner, teacher, school, division nor the region.

The main goal of MFAT is to identify Learners with Special Educational Needs (LSENs) who would need education services and/or medical/allied services.

III. Table of Specification

The Table of Specification shows the indicators per domain. It contains the number of items for each domain. The different skills are coded for analysis and interpretation of results. Assessment items of the different activities are grouped per domain.

IV. Time Allotment

The Table 2. below shows the activities with suggested time allotment.

Table 2. Activity with suggested time allotment

Activity	Time
Activity 1 - Let's Talk	10 minutes
Break	3 minutes
Activity 2 - Treasure Box	30 minutes

Activity 6 - Let's Get Physical!	20 minutes
TOTAL	120 minutes or 2 hours

After each activity, an observation checklist has been included to record specific behaviour of learners during assessment. This will help validate results at the end of the MFAT administration.

V. MFAT Materials

Materials are essential for the successful implementations of the MFAT Test. Below are the materials needed to be prepared for each assessment activity.

Below is Table 3 on materials per assessment activity.

VI. Test Procedure:

a. Test Protocols

To ensure the confidentiality of the assessment, assessors are expected to safeguard assessment tools, corresponding materials and results. The MFAT Tool should be kept or deposited in the guidance/principal's office.

b. Preparations before the Test Administration

Prior to the administration of the test, the following should be prepared:

1. Identify learners who may exhibit developmental advancement or delays or with manifestations of learning disability and the Post test result of Early Childhood Development (ECD) Checklist should be considered.
2. Ensure that materials per activity are complete, properly labelled and arranged; and,
3. Organize the room or space where the assessment activity will take place.

c. During the Test Administration

During the administration of the test, assessors should:

1. Ensure that materials can be easily accessed by the assessor but will not distract the learner;
2. Use English, Filipino or mother tongue depending on the preferred language of the learner;
3. Record time started and ended per activity;
4. Make sure that the child is comfortable before every activity;
5. Explain instructions properly per activity/task;
6. Give instructions twice only;
7. Record learner's response;
8. Use in between breaks for proper transition to the next activity;
9. Continue the assessment the following day if the child is no longer attentive; and
10. Thank the learner at the end of the assessment.

The MFAT has script within each activity for easy referral and use of assessors. The Table 4 below shows the sample script and recommended sequence.

Table 4. Sample script and sequence

- | |
|--|
| <p>1. Start with greetings
"Good morning/afternoon (<u>name of the learner</u>)! How are you today?" (Be sure that the learner feels at ease and relaxed as he/she gives his/her response).</p> |
| <p>2. Introduce the activity
"Today, we are going to play. We will do some activities. Don't worry. These are just simple activities and the result of these will not affect your grade. In fact, it will help you improve your performance in class. Do not be shy to ask questions in case you do not understand my instruction. I will be here to help you."</p> |
| <p>3. Ask the learner if she/he has some questions or concerns
"Do you have questions before we start? (Wait for the response of the learner. If the learner says "none", proceed to the assessment session. If the learner says "yes", ask what the concern is and provide appropriate answers. Only if there are no more</p> |

MULTI-FACTORED ASSESSMENT TOOL (MFAT) ADMINISTRATION HANDBOOK

questions to answer you can proceed with the activity.)

4. Ensure that the learner is ready to start

"Are you ready? (Do not start until the learner is ready or has shown any sign of approval.)

5. Read the instruction/s as stated in each activity.

6. Record time per activity

Ensure that you have a timer/watch to guide you with the time allotment per activity. Record time started and ended per activity on the space provided.

7. Record learner's responses

a. Check () YES if the learner performed the task, or the item indicated was observed. If not, check NO and write in the LEARNER'S ACTUAL RESPONSE column the learner's response or reaction towards the given task/activity.

b. Observe the learner's behavior during the activity.

8. Use in between breaks for proper transition to the next activity

"We are going to take a short break. Are you still comfortable? Do you need to go to the comfort room or do you need anything?

a. Give a few minutes for the learner to rest; go to the comfort room (as needed) and, get ready for the next activity.

b. Use this time to pack materials you will no longer use.

c. Prepare the next set of assessment tools and materials you need for the succeeding activity.

d. Ask the learner if s/he is ready to continue.

9. Thank the learner at the end of the assessment

"Good job! We finished the activity. Thank you for being cooperative and I hope you had fun."

d. Pre-, During and Post- Test Forms

The DepEd Central Office through the Student Inclusion Division - Bureau of Learning Delivery (BLD-SID) will provide the assessment tool and materials needed for the test administration.

The assessor should ensure that there are enough forms prior to the administration of the assessment. The Table 5 below shows the materials / forms for the test.

MULTI-FACTORED ASSESSMENT TOOL (MFAT) ADMINISTRATION HANDBOOK

e. After the Test Administration:

After the assessment, assessors are expected to:

1. Summarize the result for intervention or recommendation.
2. Properly pack the materials used and keep in the designated place.

MFAT FORMS FOR THE ASSESSMENT TOOL

For the Assessor: The purpose of this survey is to gather information about the assessor, learner and the school. Your answers to this survey will be used in the improvement of the MFAT. This will enable the Department of Education to enhance the said instrument and the assessment practices for our learners' welfare.
